Re: Foster Family Month

Dear Foster Families:

October is Foster Family Month, a time to celebrate and honour foster families in communities across British Columbia. The District of Taylor would like to take the opportunity to recognize the dedicated caregivers in our own community.

Thank you for stepping up when you are needed most, and for being ready to embrace someone who needs it. Every child deserves safety and stability, and thanks to our foster families, they are able to receive the nurturing and guidance needed to grow in a positive and healthy home environment.

Every day you are making a difference by opening your heart and home to a child in need. Thank you for your selfless work, warmth, and compassion.

"Foster parents are everyday heroes who pour their love, time, and energy into a child's life, making a difference that will last a lifetime."
